ARKIEVA RECEIVES RECOGNITION FROM SUPPLYCHAINBRAIN MAGAZINE AS A TOP 100 SUPPLY CHAIN PARTNER

Wilmington, DE. – 7/2/2012 – Arkieva www.arkieva.com, the designer and supplier of the Arkieva suite of advanced planning tools, announced today it has been recognized as one of the **100 Great Supply Chain Partners** by *SupplyChainBrain Magazine*. The top 100 list was chosen from more than 1500 nominations, covering a variety of different industries on five continents.

SupplyChainBrain's annual list of **100 Great Supply Chain Partners** is the result of a six-month on-line poll in which supply chain professionals were asked to nominate vendors and service providers whose solutions have made a significant impact on their company's efficiency, customer service and overall supply chain performance.

"Nominations were received for hundreds of trading partners in every aspect of supply chain management" said Brad Berger, president and publisher of *SupplyChainBrain*. "We extend our compliments to Arkieva on making this select list of 100 companies who received the most qualified nominations!"

"We are honored to be selected as a top 100 Great Supply Chain Partner for 2012," said Sujit Singh, chief operating officer of Arkieva. "This award is particularly significant to us because it is based on nominations from managers who are using Arkieva Software to meet their day-to-day supply chain challenges."

The 2012 July/August issue of *SupplyChainBrain Magazine* includes the select list of companies whose solutions and services have been so impressive, that their customers took the time to write and let us know," added Berger.

Arkieva software (formerly Zemeter) provides a wide spectrum of product functionality including demand planning, inventory planning, finite scheduling, production optimization, margin optimization, and business intelligence.

About Arkieva

Arkieva is a nearly 20-year-old supply chain software company with headquarters in Wilmington, Del., and European operations in Antwerp, Belgium. The company provides a wide range of supply chain software solutions that are in use in North and South America, Europe, and Asia.
